Hi Sergio,

As I said, it seems you need such a small amount of product that I believe a small sample would be sufficient.

(About 10 grams)

Si, instead of giving the price for a whole kit, I thought it might be more interesting for you to just purchase a sample.

But just to let you know, it would be as follow depending on your choice :

- 10 grs of MAPSIL QS1123 : 500 € tax free (minimum order quantity)
- Kit of 220 grs of MAPSIL QS1123 : 1858 € tax free

It has a 12 months durability.

Remaining at your disposal,

Have a great day and week-end !
