Dear Alessandro,

Congratulations for the acceptance of this great paper! Another success for Juno and the whole JIRAM Team!

Best,
Federico

Subject: Acceptance of COMMSENV-24-0503A

Dear Dr Mura,

We are delighted to accept your manuscript titled "Hot rings on Io observed by Juno/JIRAM" for publication in Communications Earth & Environment. Thank you for choosing to publish your interesting work with us.

We would like to encourage you to write a "Behind the paper" blog post for our Astronomy Community website. You will receive an invitation letter.

At this stage, you may wish to make your institution's press office aware of the forthcoming publication, if you wish to bring your work to the media's attention, so that they can start preparing any publicity. Please note that the paper is still under embargo until it is published in the journal. Further details of our embargo policy can be found here <http://www.nature.com/authors/policies/embargo.html>.

Publication is typically within two to three weeks of acceptance. Please note there will be no further correspondence about your publication date. When your article is published, you will receive a notification email. **If you are planning an embargoed press release or require a specific publication date, please complete our [scheduling requests form](#), or contact commsproduction@springernature.com, as soon as possible after acceptance and we will endeavour to accommodate your request.** For further information on the journey of your article from acceptance to publication, please see our [Author FAQs](#).

Licence to Publish and Article-Processing Charge

In approximately 7-10 business days you will receive an email with a link to choose the grant of rights necessary for publishing your paper and – if applicable – to provide payment information for your article-processing charge (APC), either via credit card or by requesting an invoice.

If needed, our Author Services team will be in touch regarding any additional information that may be required.

In order to avoid any delays, please ensure that you have emails from Springer Nature whitelisted in your mail system.

If you have any questions about our publishing options, costs, Open Access requirements, or our legal forms, please contact ASJournals@springernature.com

We will edit your manuscript to ensure that it conforms with our house style and send you a link to an online eProof for checking in a separate email to the publishing agreements. Please read your proof with great care to ensure that the sense has not been altered. We also suggest you discuss the proof with your co-authors, but please ensure that only one author communicates with us and that only one set of corrections is returned via the online correction in the eProof. The corresponding (or nominated) author is responsible on behalf of all co-authors for the accuracy of all content, including spelling of names and current affiliations.

To ensure prompt publication, your proofs should be returned within two working days. If there is any period within the next four weeks in which you won't be available, please nominate a co-author with whom we can correspond, and let us know their e-mail address as soon as possible.

Please note that production will not continue until the Licence to Publish and Article-Processing Charge steps are completed and your proof corrections are submitted.

Please note that your Supplementary Information files are now finalized. They will be uploaded directly to the Communications Earth & Environment website in preparation for publication of the Article. Any requests to make changes will only be considered in exceptional circumstances and will result in a delay to publication.

Acceptance of your manuscript is conditional on all authors' agreement with [our publication policies](#). In particular, your manuscript must not be published elsewhere and there must be no announcement of the work in the media until the publication date.

Your Article will be open for online commenting on the Communications Earth & Environment website. You may use the report facility if you see any comments which you consider inappropriate, and of course, you can contribute to discussions yourself. If you wish to track comments on your Article, please register for this service by visiting the 'Comments' section in the full text (HTML) version of your paper.

If you have any questions about open-access invoicing or payment, please contact

authororders@nature.com

You can now use a single sign-on for all your accounts, view the status of all your manuscript submissions and reviews, access usage statistics for your published articles and download a record of your refereeing activity for the Nature journals.

We look forward to publishing your paper.

Best regards,

Joe Aslin

Deputy Editor,
Communications Earth & Environment

Twitter: @CommsEarth

***As a new journal, we would greatly appreciate any comments you have about your experience at Communications Earth & Environment. I hope that we have been able to meet your expectations and look forward to working with you again in the future.

We may promote your article on social media once it is published, so please feel free to send me the twitter handles of any authors or departments and we will be sure to tag them accordingly.***

** Visit Nature Research's author and referees' website at www.nature.com/authors for information about policies, services and author benefits**
